

Utilizing New Technologies and Innovations in Implant Dentistry

Speaker: Brent R. Boyse, DDS

PROGRAM DESCRIPTION:

This one day program for the dental team will focus on new techniques and digital technologies for the fabrication of implant-supported restorations, including CAD/CAM abutments, bars and frameworks. Benefits and limitations of intraoral scanners currently available will be discussed, along with advanced design principles used in CAD/CAM abutment design. With the growing demand for full-arch restorations that can be delivered immediately after placement of dental implants, this program will include a comprehensive overview of the team's role in delivering such restorations, followed by the design and fabrication of the definitive prosthesis.

PROGRAM OBJECTIVES:

At the end of the program, the participant should be able to:

- Understand new digital technologies available for fabricating implant abutments and restorations.
- Understand advanced techniques for custom abutment design.
- Understand the benefits and limitations of intraoral scanning (IOS) with the BellaTek® Encode® Impression System and various intraoral scanners.
- Understand how to fabricate a fixed provisional prosthesis chairside the day of implant placement.
- Understand CAD/CAM bar and framework options.

Speaker: Brent R. Boyse, DDS

Dr. Boyse received his dental degree from the University of the Pacific – Arthur A. Dugoni School of Dentistry, where he was inducted into the Omicron Kappa Upsilon Honor Society. He completed his Oral and Maxillofacial Surgery residency at the University of Rochester in Rochester, New York and is a Diplomate of the American Board of Oral and Maxillofacial Surgery. Dr. Boyse maintains a group practice with an emphasis on full arch immediate load cases and new technologies in Mesa, Arizona.†

DATE:

Friday, November 10, 2017

VENUE:

Wyndham Pittsburgh University Center
100 Lytton Avenue
Pittsburgh, PA 15213
412-682-6200

TIME:

Registration/Breakfast: 8:00 AM
Lecture: 9:00 AM – 3:30 PM
Lunch: 12:00 PM – 1:00 PM

PROGRAM FEE:

Complimentary

PROGRAM LEVEL:

Intermediate

CONTINUING EDUCATION: 5 CEU's

5 Didactic Credits

ZIMMER BIOMET

Utilizing New Technologies and Innovations in Implant Dentistry

Speaker: Brent R. Boyse, DDS

Zimmer Biomet is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Biomet 3i designates this activity for up to 5 continuing education credits. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/cerp.

DISCLOSURE: Zimmer Biomet Dental manufactures and distributes products discussed in this course. This course is designed to present a fair and balanced view of all options.

DISCLAIMER: Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.

IMPORTANT: Massachusetts and Vermont laws prohibit manufacturers of dental devices from providing free meals to clinicians under certain circumstances. Please notify your host if you are licensed to practice in either of these states.

REGISTRATION AND CANCELLATION POLICY: Registration is limited to practicing clinicians. In order to provide each course participant with a focused and personalized educational experience, the number of registrants is limited for each course. Registration is accepted on a first-come, first-served basis. Zimmer Biomet Dental reserves the right to cancel a course no later than 14 days prior to the course date. Please be aware that Zimmer Biomet Dental is not responsible for reimbursement of travel expenses in the event that a course is cancelled. In the event that the registrant needs to cancel, written notification must be sent to Events@zimmerbiomet.com. Cancellations received less than 15 days prior to the course date will receive a refund of the tuition amount paid less a \$50 administrative fee.

TRANSPARENCY REPORTING: All payments and "transfer of value" items provided to health care providers will be reported as required by federal and state laws and regulations. "Transfer of Value" items includes meals and continuing dental education credits.
